🏠 Bukurešťská 24, Košice 04013

Employment History

- Oct 2023 – Sep 2024 **UX Designer, DSU – Digitization of the Building Authority, Technical University of Košice.**
Designed a non-functional prototype, Figma UI, and project documentation for digitized building-authority workflows.
- Sep 2021 – Nov 2023 **Frontend Developer, Deutsche Telekom IT Solutions.**
Developed user interfaces in Vue3 and Angular, contributed to Selenium-based automated testing, and worked in agile Scrum delivery.
- Sep 2023 – Present **Teaching International Students, Technical University of Košice.**
Taught English-language lectures and exercises in programming, UI/UX, and current trends in informatics.
- Sep 2021 – Jun 2023 **Student Teaching Assistant, Technical University of Košice.**
Taught Algorithm Basics, C Programming, and UI/UX Design; prepared course materials and provided student feedback.

Education

- Sep 2023 – Present **PhD Candidate in Informatics, Technical University of Košice.**
Dissertation topic: identifying programmers through source code style analysis and behavioral biometrics.
- Jun 2023 – Mar 2024 **MBA in Startups and Entrepreneurship, EDU Effective Business School.**
Emphasis on innovation, lean methodologies, and strategic planning for technology ventures.
- Sep 2022 – Jun 2024 **Supplementary Pedagogical Studies, Technical University of Košice.**
Qualification for teaching computer science at primary and secondary school levels.
- Sep 2021 – Jun 2023 **Ing. in Informatics, Technical University of Košice.**
Thesis topic: plagiarism detection in source code.
- Sep 2018 – Jun 2021 **Bc. in Informatics, Technical University of Košice.**
Thesis topic: network traffic simulator for video conferencing devices.

International Research Mobility

- Apr 2026 **University of Maribor, Maribor, Slovenia.**
CEEPUS research stay focused on finalizing dissertation work and on methodological aspects of source-code analysis and programmer authorship attribution. Collaboration: Marjan Heričko.
- Oct 2025 **Athens University of Economics and Business, Athens, Greece.**
SAIA National Scholarship Programme research mobility focused on source-code authorship attribution and stylometric analysis. Collaboration: Diomidis Spinellis.
- Sep 2024 **Palacký University Olomouc, Olomouc, Czech Republic.**
CEEPUS mobility focused on research work related to the dissertation proposal. Collaboration: Tomáš Dragon.

Selected Publications

Conference publications.

Authored or co-authored conference papers at SAMI 2024–2026, ICETA 2021 and 2023–2025, ICPEC 2024 and 2026, INES 2026, Informatics 2024, SCYR 2024–2026, and Poster 2026.

- **Bridging Behavioral Biometrics and Source Code Stylometry: A Survey of Programmer Attribution.** In review. Preprint: arXiv:2603.11150.
- **Personalized Learning Analytics Through Static Code Analysis in Computer Science Education.** Acta Informatica Pragensia. DOI: 10.18267/j.aip.283.
- **Benchmarking AI Models for Grading Computer Science Assignments Across Multiple Domains.** Acta Polytechnica Hungarica.
- **Profiling Programmer Proficiency Using Static Analysis.** PeerJ Computer Science.
- **Code Clones: A Novel Approach to Detecting Plagiarism in Binary Decomposition of C Programs.** Acta Electrotechnica et Informatica. DOI: 10.2478/aei-2024-0006.

Selected Academic Activities

- **CURATE – Ulysses Project.** International project for GymBeam in the roles of Product Owner and Scrum Master; final presentation at the University of Münster, Germany.
- **Reviewer.** Acta Polytechnica Hungarica; SAMI 2026; Proceedings EEI; INES 2026.
- **Student theses and mentoring.** Supervised or co-supervised 30+ final theses; Buddy Program mentor.
- **Teaching Involvement.** Exercises/tutorials in Algorithm Basics and Programming, C Programming, UI/UX, Requirements Engineering, Database Systems, Advanced Software Engineering, and Information Systems Security.
- **SCYR – Organizing Committee.** Member of the organizing committee for the doctoral conference, supporting submission processing, author communication, and post-review checks.
- **Summer School of Statistics, Brno.** Participant in the August 2025 Summer School of Statistics.
- **Slovak-Hungarian Project (TeT).** Research collaboration with Eszterházy Károly Catholic University on TAIPO, an AI assistant supporting product owner workflows.
